Mr. R. Prentice,
President,
Tramway Museum Society of
Victoria Ltd.,
141 High Street,
PRAHRAM. VICTORIA. 3171

Dear Mr. Prentice,

You will be pleased to know that the restoration of the cable car which you personally helped this Museum to obtain is nearing completion. However we are in need of certain parts to finish this project and, as our enquiries within New South Wales have been fruitless, I am taking the liberty of approaching you with a request for assistance in obtaining the parts required. I am indebted to Mr. P.A. Stoneham, member of your Society who suggested that an approach to your organisation might be productive of results.

The items in question are as follows:-

Roof electric lamp fitting and shade.

Two, General Electric model J15 headlights.

Complete Gong.

Destination boards and brackets.

Quadrant and lever for Grip (without grip mechanism as we wish to show the driver's controls only).

I would be most grateful for any assistance you can afford the Museum and would like to emphasise that we would naturally be responsible for any costs involved both in the acquisition of the parts and in their transport to Sydney.

Yours sincerely,

J.L. Willis
J.L. Willis,
Director.
