Compiler's note.

About 8 years ago I purchased a collection of slides (around 1000), at auction, from the deceased estate of one Clive Coram. On closer inspection of the material, I was thrilled with the quality and historic relevance of the images and my thanks go to Hugh Ballmen for his input and encouragement to make this book a reality.

All the slides were well-notated with (in most cases) the photographer, date and location. I have been unable to find any references for Clive Coram or the main photographer represented here, Kevin Rette, but three pictures published are attributed to KS Kings and are reproduced with his permission.
