### 100 Years of Electric Trams

Mr Keith Kings

Dear Sir,

Enclosed is a copy of one of my lifetime dreams, to retrace the lives of our trams from Birth to their final days.

This came about at a TMSV meeting many years back being held at the Malvern Town Hall. I asked Len Millar if there was a roster of where the trams were, after they left the system. His reply to me was " When they are gone they are gone".

I felt then that the Tramway Museum Society of **Victoria** should have something on their lives, so started to put things together and with help from great people like Yourself - Bob Prentice - Norm Cross and Ross P Baird and friends, I have finally got something together for the **100 years of Electric Trams**.

This is the **P&MTT** part, the rest will follow soon.

This can also go to the TMSV Archives when you are finished with it.

It's not a nuts and bolts story, eg,

**PMTT 44 = MMTB 44 scrapped 7-5-1951 to Bendigo SEC as 17 to Bendigo Trust restored as PMTT 44 Depots M K GH V M B**

I first wrote this up on a type writer then came the computer age, then on a floppy disc, now that has been superseded and I am about to put it on a disc for all to see.

The other lifetime dream was to follow in my cousins footsteps in working on trams - my cousins drove Cable trams in Melbourne plus driving and inspector in Bendigo many years ago.

A story from Bendigo in the **Very** early days :- If you turned up for work in a new pair of boots - you got the sack. You had to be taking it from the bag. Because the wages you received , you could not pay for a new pair of boots.

I have been a very lucky boy with this job. I have driven every type of tram under the MMTB MET PTC Swanston Yarra 'brolley' and full respect from Management - Union - Workshops and Germany and its all coming to an end soon - 3 more years to go.

Hope this finds you well, the last time I saw you, I gonged you at night at East Burwood in 214. I was testing a new devise on the trams for the future new information of knowing where the tram was.

Yours Truly  
Ron Scholten
