## No public transport into the CBD between 8am and 2pm on Saturday 18 September

At the request of Victoria Police, public transport will not run through the CBD on Saturday 18 September 2021.

This will impact all metropolitan and regional train services, trams and buses from 8am to 2pm with services expected to take some time to resume to regular timetable.

Major road closures on thoroughfares into the CBD will also be in place. Significant delays are expected on roads leading to the CBD. CBD access will only be granted at roadblocks to those travelling for essential work, healthcare or to attend a vaccination appointment.

Metropolitan train services will terminate at suburban stations, where can effectively turn around and continue to provide services away from the city.

Tram routes and bus routes that normally travel into or through the CBD will now terminate at stops, some distance outside the CBD boundary and turn around. Some tram and bus routes will not run at all, while others will run to a reduced timetable.

**[Download the metropolitan and regional train services station termination map \(PDF\) 125 KB](#)**

**[Download the metropolitan tram service stop termination map \(PDF\) 223 KB](#)**

Those people undertaking authorised travel with permits are urged to allow plenty of extra time for their journeys. They must carry identification and proof of their reason for travel, such as an authorised worker permit, or vaccination booking confirmation.

As a last resort for authorised travellers, two shuttle buses per hour will run from the nine suburban railway station termination points (see list below) to key drop-off points in and around the CBD. Passengers will be required to complete their journey by walking to their location from the CBD drop off points.

Victoria Police officers and PSOs will be checking proof of reasons for travel prior to allowing people to board shuttle buses.

Information will continually be updated on the PTV website and app. We encourage everyone to regularly check these to ensure they have the latest

information.

Real-time traffic conditions are available at [traffic.vicroads.vic.gov.au](https://traffic.vicroads.vic.gov.au) or via the VicTraffic smartphone app.

## Service changes

- Metropolitan trains
- Metropolitan trams
- Metropolitan buses
- Regional trains
- Regional coaches

### Metropolitan trains

Metropolitan train services will terminate at suburban stations from 8am to 2pm.
