37 CLIFTON ST
WEST ESSENDON,
VIC 3040
6th June '71

Dear Jack

Please find enclosed
VR file NOS. They are the other
prints of the VR I have, but they are
too well stuck on the page of
my album, to remove them would
involve replacing the page, and probable
damage to the prints but I have
described them as follows:-

6	Kilwood Depot	corner view	about	1907.
13	"	"	"	"
3	"	side view	"	1920.
28	"	"	"	1917.

Please find enclosed photo of a
cable tram in Bourke St, of a
collect photo of cable cars, so I

Thought this would be of benefit to your collection.

Thank you sincerely for being able to help with photos of MMTB C 26 and MMTB S 163 from the Stevenson Collection and thank you sincerely for your help over the past years and for your assistance with the other prints I had requested from you.

Please find enclosed envelope etc.

Margaret sends her regards to you all also Robyn and Daryl, my son nearly gave out when the bird was getting started and

I discovered the per was loose.

Were you able to locate a photo of Geely No 1. I had requested a print of this for your archives, but I think you mentioned that it was not on file and that you may have had difficulty in locating the neg. I think the description was of No 1 in the last type green and cream colour scheme.

Well, I had better close for now. Margaret and family wishes to be remembered to you all.

Yours Sincerely,

Bob
