Cycling

Cycling in traffic

When in traffic, be visible and confident but prepare for evasive action! Look ahead for gaps in traffic.

Share the lane
Depending on lane width and traffic speed, keep left or take the lane.

Changing traffic lights
Ride over black sensors at intersections to change the lights.

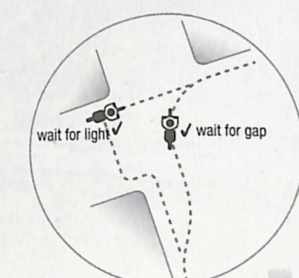

Cross tram and train tracks at wide angles.

What's around you
Look for gaps in the traffic pattern and be aware of what's around you such as spaces between parked cars, kerbs and buildings to exit the traffic.

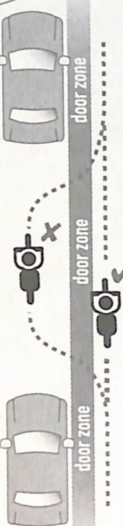

Consider using a handlebar or helmet mirror.

Use hook turns
If a normal right-hand turn leaves you exposed in an intersection, use a hook turn.

Don't weave around parked cars
If you hug the gutter you'll get squeezed out. Don't weave in and out of empty car-parking spaces to stay close to the gutter; keep a straight line.

Positioning in traffic
Be aware of cars' blind spots to the side and next to their back doors.

Cycling

Locking up

Use a D-lock
Cables are easily cut. Get a good D-lock or armoured cable. A cable and D-Lock is extra secure.

Where and how to lock
Always lock your bike, even when it's at home. Lock it in visible areas with lots of light and people. Don't lock to poles that can be lifted out of the ground. Check your lock before leaving.

Preparing your bike
Remove your lights or secure with Super glue or cable ties. Disguise the value of your bike with stickers and tape or even a fake DIY rusty paint job. Replace quick releases with bolts or secure with hose clamps. Engrave your bike with a driver's licence number of someone you trust. The police can help.

If your bike is stolen
Report it immediately to the police. Look in second-hand shops but don't tell staff. If you find it, then call the police.

Car doors

It's illegal to open doors into traffic
A person must not cause a hazard to any person or vehicle by opening the door of a vehicle, leaving the door of a vehicle open, or getting off, or out of, a vehicle.

To avoid doors, look:

- for heads in windows
- in car side mirrors
- at cars that just parked
- at car tail lights

Watch the door zone
If you can't see into cars, ride slower or move out of the door zone. Be aware of what's behind you if you have to swerve out. Take a lane if you're being forced into the door zone.

If a door opens
Don't waste time with a horn or bell, go for your brakes and yell. Move out but don't swing into traffic.

If you get hit
If you're hit by a door and injury or damage results, it's a traffic accident and details must be exchanged.

Bike shops

Getting to know your local bike shop or mechanic can help keep you and your bicycle in healthy running order.

Glenroy Cycles
78 Wheatsheaf Rd
Glenroy
ph. 9306 9651
Mel. Ref. 16 H3

Goldcross Cycles
13-15 Puckle St
Moonee Ponds
ph. 9370 7033
Mel. Ref. 28 J7

Hillman Cycles
46 Grantham St
Brunswick West
ph. 9388 0033
Mel. Ref. 29 E8

Hypergear

24/7 point-point

There are three ways to get a taxi – book by phone, hire from a Taxi Rank or Hail from the side of the road.

1. Hire
There are clearly signposted taxi ranks throughout Victoria.

Stand and wait for a taxi. Remember you are not obliged to take the first taxi.

2. Hail
You can 'hail' or flag down a taxi from the side of the road or street. Try to pick a place that is safe and easy for the driver to stop.

3. Book
Dial one of the numbers listed.

An operator will take your details and depending when you want a taxi the first available car will be dispatched to collect you.

It is a good idea to pre-book a taxi when you wish to arrive somewhere at a specified time.

Arrow Taxis	13 22 11
Embassy	131 755
North Suburban	131 119
Silver Top	131 008
West Suburban Taxis	9689 1144
Yellow Cabs	132 227

Wheelchair accessible taxis:
Silver Top 8413 7202
Yellow Cabs 9277 3877

When a taxi is booked it is no longer available for hire and the small orange light on the roof sign is lit.

Depending on its size, you can hire a taxi for one, two or more passengers.

Sometimes at major events or at extremely busy ranks a system called 'multiple hire' proves the most efficient for passengers. This is a system whereby two or more passengers choose to share a taxi but are not in the same party.

Each passenger pays 75% of the metered fare at their drop off point. It is the first passenger's discretion as to whether to allow multiple hiring.

At busy times book your taxi well ahead of time to avoid a delay in arrival.
