Warrandyte Diary takes on a new size and a new look this month. The paper was launch-ed last December as a service project by the Warrandyte Community Youth Club. Initially we saw the paper as a fund-raising venture. So far, we are

only just paying our way. But in other respects Warrandyte Diary has more than fulfilled our expectations. Originally the paper was intended to be a little local newsletter, a district notice board, ably supported by dis-trict advertising.

Gradually, over the en-suing months, we have been forced to take a stand on a number of local issues — issues that

local issues — issues that seem important to us. The coming months may prove to be difficult ones for Warrandyte Diary. Our financial resources are meagre,

our manpower reserves are non-existent. But we believe that

but we believe that our paper should survive. Turn to page 3 and read the letters we have printed there. The coming months may prove to be difficult ones for Warrandyte, too. We might find ourselves

battling to save Warrs battling to save warran-dyte as a good place in which to live. Warran-dyte might be thankful for a voice independent of commercial tional control.

continuing support, assis-tance and patience.

The construction of Warrandyte Primary School's

long-awaited library building began last week with the commencement of preliminary setting-out and foundation works.

The contract for the library's construction has been awarded to Quest Constructions of Glen Waverley and the building must be completed by October 11.

Overall cost of the library will be \$13,500.

will be \$13,500. "This is the culmination of several years' effort on the part of the School Com-mittee, Mothers' Club and the community in general," committee secretary Mrs. Beth Gallagher told War-randyte Diary this week. "The idea was first moot-ded the school of the the callagher saw." "It was originally intend-dult at he school, followed by a canteen. However, when it was realised that the school, followed by a canteen. However, when it was realised that the school, followed by a canteen would be an excellent source of funds, the allowing for the con-struction of a better library building, the canteen was given preference. "With the opening of the canteen in February, 1970, the way was clear for a

stepping-up of the cam-paign for a library. "Quite a lot of money was raised through direct

was raised through direct giving and a door-knock appeal, with Warrandyte people giving generously towards the project. "However, we were still far short of the amount that had to be contributed locally so that we could qualify for the Government subsidy. "It was then that the

"It was then that the Warrandyte Civic Associa-tion came to our aid with a direct, 'no-strings' dona-tion of \$2,200. "The Civic Association had operated in the district for some years previously, raising funds for local causes, and their donation means that our library will be opened fully-equipped and completely free of debt."

be provided by the Department for a nucleus of books to stock the library, and this will be liberally supplemented by funds from local sources.

A teacher-librarian will be appointed to the school prior to the library's completion, thus preparing the way for the utilization of the building by the children as soon as it is opened.

Three study carrels and an audio-visual carrel will be included, thus increasing the library's effectiveness in modern group and individual teaching techniques.

 The library is being built to an individual design prepared by architect Kevin Makin and will be one of the most advanced of its type in Australia. Mr. Makin designed the oustanding library building at Templestowe Primary School.

# **ALARMED RESIDENTS WRITE: Guard over the** village we chose 2

Suddenly, seemingly overnight, the Warrandyte we know and love is threatened. Threatened in the name of progress.

By developers, by people who cut down trees without thought of replacement, by an insidious frittering away of bushland, by a desire to pull down and change the face of our township.

Four residents of Warrandyte have written to us, deploring this destruction. Here are their letters.

## **'...** first action is to flatten all the bush on the block . . .' SIR

As residents of Warrandyte for many years we are becom-ing disturbed at certain trends which effect the natural en-vironment of the Warrandyte in which we live.

<text><text><text><text><text>

least 30 to 40 reet around the house. If a natural area of native plants is desired, create this away from the house and isolate it by clearing the undergrowth area or by sur-rounding it with paths or deive. drive.

If any person is consider-ing completely clearing their land think what Warrandyte would look like if everybody decided to do the same.

We have in mind that a similar message to the above should be made available to all purchasers of land in the Warrandyte area in the form of a printed card distributed by estate agents and councils.

Any person or organisation interested in assisting in the supply of such cards please supply of such contact us. —HEATHER and BRUCE DAY, Blooms Road (844 3310).

## '... reaching a point where we have to stop and think ....' SIR,

Ten years ago now my hus-band and I chose to live in Warrandyte and like most people who have settled in this village, did so for a number of reasons; the beautiful natural environment and the village atmosphere being perhaps the greatest attractions.

months and years As months and years went by we became used to living among trees and birds and almost forgot that the charm of this place could be affected.

affected. The 1962 fires made us realise that the face of War-randyte could indeed change very quickly. After that sad change came a happier one, when the bush regenerated and nature rapidly restored it heavity

over the last few years however, our township has been expanding and changing nowever, our townsnip has been expanding and changing gradually but more perman-ently and I think we are now reaching a point where we have to stop and think and decide whether we want to retain Warrandyte's beauty and history or drift gradually into a suburb with such attractions as made footpaths, brick post office, car yards—and who knows —traffic lights at the bridge! I fully realise that changes made in the name of pro-gress are hard to stop, but could we not try to bend "progress" a little to blend in with what is left of War-randyte's character? In the past, residents of

Warrandyte have acted to-gether successfully to avert the construction of a railway

the construction of a railway and light industry, and thus retained our isolation. Would it not be possible now to get together and guard over the village we chose to live in? —ANNEKE VAN DE LOO, Mullens Road.

## ... without some action we will find ourselves surrounded by paling fences SIR

At the moment Warrandyte is on the verge of a land boom; already the developer has moved into the Harris Gully Road area.

Bulldozers have been tear-ing at the earth for weeks, gouging out roads, knocking down trees to make way for about 70 quarter acre build-

about 70 yan ing blocks. Right throughout the War-Right throughout the War-medute area, "land for sale" randyte area, "land for sale" signs are appearing overnight like mushrooms. Many sales are being forced on owners because of

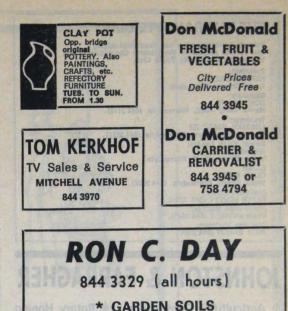

the council's policy on rating, while other owners are taking advantage of the rezoning of land from large allotments to smaller allot-

ments. In Harris Gully Road, In Harns Gully Road, areas of land have been recently rezoned from 5 acre to quarter acre sub-division by the council with-out the knowledge of the owner or residents in the area

Such action, together with the method of rating, will force owners into selling their land to developers who have no interest in the local environment, but whose main object is to make a quick profit. I believe this is a vital issue and your paper could be the means of making the community aware that with-out some action we will find ourselves surrounded by paling fences and become

our some action we will find ourselves surrounded by paling fences and become just another suburban area and your column "Moun-tain Greenery" will have to be renamed "Concrete Facts."

# THE TALE OF A DOG

### BY ANNE MARTIN

What do you do when you arrive home from work and discover that a bitch has moved in and had puppies on your verandah?

Tiger is a fox terrier cross Australian terrier who be-longs to a pensioner. She has an ideal life for a dog, sleeping on her master's bed. She eats the same food as he does, is as free as a bird living in the hills of Warrandyte.

So on Friday. April 30, I

So on Friday, April 30, I arrived home to find Tiger and six new-born pups in my dog's kennel. What would

suppose we should have, certainly the females but why is it so wrong to be born a girl?

Being very soft-hearted when it comes to a dog in when it comes to a dog in need, and even more especi-ally believing one of our dogs to be the father, we cleaned up Mum and check-ed her over, gave her a warm clean bed in the laundry and there the pup-

lating and there the pap-pies grew. Six babies are a lot to cope with, but by supple-mented feeding we have reared them all and they are fine healthy little dogs, and, I might add—very lively

lively. Now, of course, the big problem is placing them in homes where they will be loved and cared for. Four

<text><text><text><text><text>

evening and weekends.

# **Producers Discovered** PLAYS REVIEWED BY C.G.

WAA Drama Group has succeeded in finding at least two new producers of promise.

As their current season of three one-act plays was de-signed with this object in view, the group should feel satisfied that their project has been so successful, for in Mairi Barkei and Jock Macneish they have dis-covered two potentially very talented producers. Mairi Barkei's production of James W. Bell's play "Symphony in Illusion" was rich in inventive design and As their current season of

Simplify in inventive design and movement. She handled the difficult, rather out-dated moralistic script with competence and was ably assisted by clear and forceful acting from Sue May, Sharry McKenzie, Sondra Hopkins, Beth Gallagher, Joan Blair, Leeanne Brooks and Jeanette Milner. Jock Macneish took N. F. Simpson's "The Form", a

seemingly abstract play, handled it as a knockabout comedy, and the results were superb. His settings and his devising of stage busi-ness brought the play to life and turned a difficult script into an enjoyable theatrical experience

End Bird, Jim Pleasance, Anne Martin and Roy Hopkins provided some of the best comedy acting I have seen on an amateur stage

stage. The first play on the pro-gramme, "Love in the Ape House", was not in the same class as the others. Peter Milner, Diane Baxter, Doug Rogers and Jock Macneish battled hard to make some-thing of this pedestrism thing of this pedestrian comedy feebly attempting to make a statement about human behaviour.

# **Choice of Plays**

Members of the Warrandyte Arts Association drama group will have no cause for complaint if they miss out on a role in the September production.

Previously, the drama group has been criticised for not deciding on a play be-fore the casting meeting. But this has been diffi-cult to arrange because of the shortage of men within the group, and no firm idea who is available until the meeting. A change has been made

A change has been made in planning. On Sunday, July 4, at 2.30 p.m. in the hall, casting for the Sep-tember production will be held.

beld. Bob Karl, the producer, will attend and the play will be decided at this meeting from "The Living Room", "Look Back in Anger", "Chalk Garden", and "Sum-mer of the 17th Doll". By holding the meeting and selecting one of these plays on this date, the drama group feel it is the fairest method for the pro-ducer.

ducer

The C.A.E. is providing an experienced teacher, Leila Blake, for acting

classes commencing on Mon-day, July, 19, in the hall. The lessons will last ten weeks. Fee for the course is \$5 or \$1 a night. On Tuesday, July 13, Lois Osborne will produce a play reading of "Dear Charles" in the hall at 8 p.m. All members and friends are welcome.

#### **COPY CLOSING** FOR NEXT ISSUE

Copy for the next issue of Warrandyte Diary must reach the editor by Tuesday, July 20.

We will be pleased to publish news of your orga-nisation free of charge.

Groups in surrounding districts — Warranwood, Kangaroo Ground, Wonga Park, South and North War-randyte — are especially invited to contribute.

There is more than a river dividing our com-munity. Administration by two separate muni-cipalities is a continual source of frustration for groups and individuals attempting to improve the quality of life for Warrandyte as a whole.

August is council elec-August is counce elec-tion month. Perhaps this is the year when we should look hard at the possibilities of including the whole of Warrandyte within the borders of one municipality.

Warrandyte's future as Warrandyte's future as a special place may be already in the balance. "One Warrandyte" will have a far greater chance of deciding its own future than will two separate areas, both the tail-ends of two different council districts. August, 1972, may be too late.

"This Shop Does Not Sell 'Roo Meat" says the sign in our butchers. Multiply his concern by a thousand butchers across the country and there might yet be hope for Australia's wildlife.

Someone in the Blooms Road area is emptying their toilet pan straight onto the ground in a little clump of bush. Putrid dogs and small children have had to be cleaned up on several oc-casions recently. Neigh-bourty bourly . . .

Although Warrandyte's first school opened towards the end of 1856, with Thomas Downward as headmaster, it was not until 1864 that it was made a National School with Mrs. Rosa Mary Pretty in charge.

**Continuing** 

STORY

Harry Hudson's WARRANDYTE

The original building was a small shingleroof building at the corner of Forbes and Yarra Streets.

When the State School system was introduced in 1873, Warrandyte School was listed number 12, giving rise to the erroneous idea that it was the twelfth school in the State. It was the system, however, to number schools in alphabeti-cal order, so that Anderson's Creek came near the top of the list. It retained its number when, in 1908, it was altered officially to Warrandyte. In 1877 the school was shifted to its present site. Warrandyte owes a debt of gratitude the learning of so many of its young citi-zens.

the learning of so many of its young citi-zens. It is known that Henry Kinsley, author of "Geoffrey Hamlyn", endeavoured to make his fortune on the diggings. He camped on a site adjoining the Warran-dyte Cemetery. The Rev. J. Campbell, a school chum of Kingsley, in 1931, at the age of 94 years, told how on arriving at Melbourne in 1857 he went to see his friend, Dr. Irving, a University professor. It was on Dr. Irving's advice that he left for the Caledonian Goldfields to join Kingsley, where he toiled and moiled and helped with the rough cooking. The result of their digging was very disappointing but Kingsley was work-ing on his book, "Geoffrey Hamlyn", throughout that period. Rev. Campbell Kingsley by remarking, "I believe there is a town there now called Warrandyte, where Melbourne trippers go for their picnics."

picnics." The religious life of Warrandyte, as stated earlier, began in 1851 when Rev. J. H. Gregory and Rev. Cheyne held services in the tents of Louis Michel and Habberling. From these rough begin-nings sprang our present churches. The first Anglican church was erected in 1870 on land granted by the Crown at the present site of St. Stephen. It was only a small room which was replaced by a larger church in December, 1906.

# Schools. churches and stil mor gold.

The present church of St. Stephen was built after the destructive bushfire of 1939 through the energetic efforts of

built after the destructive bushfire of 1939 through the energetic efforts of parishioners. The first Roman Catholic priest to visit Warrandyte was Rev. Father Wil-liam Finn, of Heidelberg. In 1865 he-held mass and baptized three children. From then on a priest visited the settle-ment, usually from Heidelberg, every six months. It was 1907 before the first Catholic church was built. Gold mining began to boom in War-randyte from 1870, after Grants Water Battery was installed in 1868. This was the first big lift given to quartz mining in the district since crushing and carting prices were reduced. By the end of 1870, from the crushing of 38 tons of quartz, a yield of 153 fine ounces of gold was show. The Yarra Tribute Co., working a claim under the river 50 yards upstream from the island, was highly successful from 1870 to 1874 when the reef petered. Ten years later it was rediscovered. The old Pigtail Co. produced 1,500 ounces of gold in the two years between 1874 and 1876. It was discovered by H. Stiggins. There were numerous Chinese in War-

There were numerous Chinese in War-randyte in those days, from which derives the name Pigtail Hill.

Diorite Dykes also proved successful ground in 1878, on the old Thompson Estate.

Biorite Dykes also proved successful ground in 1878, on the old Thompson Estate. So what began with Louis Michel at one end of Warrandyte showed profits at the other end. The Dykes were a mass of small quartz leaders running in decomposed rock. This proved easy crushing for the new Elliott Freehold Co., which em-ployed 30 men on a stamp-crusher. Of 22,114 tons of material treated from the Dykes, 1,726 ounces of gold was yielded. A venture unique in the history of gold mining in Victoria was carried out by David Mitchell, father of the world-re-nowned singer, Dame Nellie Melba. He formed the Evelyn Tunnel Gold Mining Company, for the purpose of constructing a dam across the bed of the Xuer Yarra, to divert the flow through a tunnel constructed at Pound Bend. It was hoped to puddle the bed of the Yarra for more than three miles. A large party of mining financiers and other gentlemen assembled at the mouth of the tunnel on July 3, 1890, to watch the Yarra take on its new course. Originally estimated to cost £10,000 and twelve months to complete, the work was carried out in three and a half months at a cost of £2,100 by the ap-plication of a new American method of construction. The tunel, which was 634 feet long, 18 feet wide and 14 feet deep, proved

construction. The tunnel, which was 634 feet long, 18 feet wide and 14 feet deep, proved quite a success after several false starts. Despite the overburden of mud, which had to be scraped to a depth of 50 feet without suitable machinery, £8,000 worth of gold was recovered in twelve months. With successes such as these, the pros-perity of Warrandyte seemed assured for years to come, but after the turn of the century there was a gradual falling off in gold production.

century there was a gradual falling off in gold production. Then came new gleams, including the discovering of the Caledonian Mine in 1904, but the haleyon days of Warran-dyte were dwindling. The booming days towards the end of the last century made it imperative that faster communications should be instal-led. So in 1900 the first telephone was installed at Warrandyte Hotel and con-nected with Kangaroo Ground exchange. This, together with the faster mail ser-vices from Heidelberg and Ringwood by coach, brought the town within "cooee" of Melbourne.

of Melbourne. Warrandyte was no longer a settlement lost in the bush, but a town, with repre-sentation on the Council at Doncaster.

**CONTINUED NEXT MONTH** 

In the last issue of the Diary we reported that some residents were pressing for a twice-a-week garbage collection.

They claimed that with modern packaging these days, bins soon became over-crammed with once-a-week collection.

**Monthly Doncaster** Summary Council "happenings" by Cr. Viv Rush

& Templestowe on Warrandvte

# TWICE WEEK GARBAGE

Warrandyte Ward will at present retain the once weekly garbage collection.

A new garbage con-tract is being prepared and will be let later this year. This is the time a change could be made for Warrandyte.

The present contract rate is 10c a bin in War-randyte for one collec-tion and 15c for the re-mainder of the City where two collections are

where two collections are made. The new rates **must** be substantially higher due, firstly to wage rises, etc., and secondly to the longer leads to dump, possibly at Northcote, because our own tip sites are full. In planning a bi-weekly

are full. In planning a bi-weekly service without Saturday work, collections would be on a 2½ day cycle, with one half collection on a two-day interval and the other a three-day. Observations show the two-day interval expen-sive for its benefit. In Melbourne, 11 of 48 municipalities have a bi-weekly collection. Mostly these are old areas that have a carry

on from Saturday morn-

Some cities using council labor use Wednes-day as a fill-in day on odd jobs. This is very using

of our nine neighbor-ing municipalities, only one has a bi-weekly ser-

Warrandyte township constitutes less than 4% of the City's revenue, and with its low density and terrain it is difficult to service.

Once weekly service will help to maintain present services without too much increase in rates

rates.. At present, each house-hold is permitted two 2 cubic feet approved con-tainers at each collection. This is equal to more than 24 gallons of house-hold garbage a week.

#### **RESERVE WORK**

Following a meeting with clubs that use the Recreation Ground, Councils will carry out further improvements. the Extensions to

lower oval will allow the Warrandyte Cricket Club to field another team in the 1971/72 season. Extended parking areas at the main oval will allow football patrons better views

better views

Floodlighting of the main parking area will give the Youth Club a better outdoor winter area than the oval.

#### **SUBDIVISION**

Road work on the new subdivision in Harris Gully Road has begun. This is the first develop-ment since the fifties where private land, that does not front an exist-ing road reserve, has been subdivided. As much as many of

subdivided. As much as many of us are against develop-ment, the zoning of resi-dential "C" for the town-ship has existed since 1954. This gives owners of land rights to sub-divide. Outside of this town-ship area, the rural areas have been restricted to 20-acre minimum blocks for the past few years.

The Warrandyte Meals on Wheels scheme which began in April is working smoothly and the service is proving popular.

Gradually the number of people receiving meals is building up. The organisers are pro-viding about seven to nine meals a day three days a week week

week. Under the scheme, nutri-tional meals are provided at well below cost. Subsidies from Councils and the Commonwealth are a big help, but a substan-tial sum still has to be raised by the organisers to finance the venture. The meals are prepared at the Judge Book Homes

in Eltham and brought across to Warrandyte by a team of voluntary drivers. About 15 drivers are on the roster. Organisers say they could do with some "jockeys" to help drivers deliver meals. Jean Cole or Mavis McLaughlin will be pleased to hear from any person who can help in this direc-tion.

tion. Meals-on-wheels is not only available for elderly people. The organisers point out they can provide meals on

a short-term basis for any young person who may be living alone and temporarily incapacitated.

Donations to the mealson-wheels is tax deductable. During their rounds with meals, drivers observe many of the needs of elderly people.

Apparently some of these elderly folk need mainten-ance work done around their homes. This could be a chance

for more senior members of the Warrandyte Youth Club to band together to help with the odd jobs that may be beyond the physical capacity of elderly people.

# ARE WE BACK IN THE DAYS OF THE GOLD RUSH? Football Club Refreshments Served in 1 [ent]

Spectators at football matches at Warrandyte Recreation Reserve on Saturday afternoons must feel as though they are back on the goldfields 100 years ago when they are served refreshments in a tent.

Warrandyte Football Club officials feel they deserve a better deal from the Doncaster and Templestowe Council.

The club sponsors four teams and is desperately short of space in the exist-ing pavilion. Because of the extra teams, more interest is be-ing shown. Each week a big crowd attends the War-randyte ground.

#### Match-box kitchen

The match-box size kitchen servery has become too small to cater for the crowds.

### Distribution Manager Appointed

Warrandyte Diary now has a distribution manager. He is Mr. Stan Andrew of West End Road.

West End Road. A member of the Youth Club General Committee, Stan will now be respon-sible for all aspects of the paper's circulation, including periodic checks on distribu-tors and outlets.

Any enquiries or com-plaints concerning distribu-tion should be addressed to him

Stan's phone number is 844 3543.

The women's auxiliary is forced to work outside in often cold, wet and windy conditions in a TENT. The money these women raise by selling refreshments, sweets, scones and tea, etc., helps raise the money es-sential to run four sides each week. They moved into the tent

each week. They moved into the tent because there is no room for them and their food-stuffs in the servery. The tent has become a bit of a laughing stock among officials and players from opposing clubs. All other clubs in the competi-tion, except Warrandyte, have a sizeable canteen.

### Canteen needed

Warrandyte Football Club officials are pressing for a brick canteen from the council. They say they look with envy at what has been done at other council football grounds, particularly Tem-plestowe and Park Orchards. Many football followers claim that a well-built lock-up, brick canteen could also up, brick canteen could also double up and be used to ease the storage space prob-

lem. Now that winter is with us, the muddy conditions

surrounding the ground again present problems. Cars, particularly those belonging to the visitors, unsuspectingly get caught in slippery, mud patches. The locals know what areas to avoid!

avoid! Football club officials say they will be approaching council to ask them if any rock or solid material can be laid to prevent cars be-coming bogged, or caught in slippery conditions. The general condition of the ground and the tidiness could not be faulted since council engaged a full-time curator.

Many favourable com-ments have been made on how well kept the area is compared to what it used to be.

You can post your Warrandyte Diary news items and advertise-ments in the old tree in Yarra Street, opposite McDonald's News-agency

agency.

POST IT IN THE TREE!

Warrandyte Diary is letterboxed throughout the Warrandyte and North Warrandyte postal delivery areas.

Free copies are obtain-able from McDonald's Newsagency, Selby Store, Golden Gate Store, and general stores in South Warrandyte. Warranwood. Wonga Park and Kangaroo Ground.
